Good morning,

My bad, I forgot I had asked you and posted the comment already. I hope it's fine the email string I included.

Regards,

Ms. Amparo Castillo

Subject: RE: Question from Asbestos SACC Member

Amparo,

I consulted the DFO (Diana Wong, copied) and we believe that only the June 26 email from Robyn Brooks (the submittal message) needs to be retained. The background contained in the other email messages is already summarized in the attachment to the June 26 email.

Please let us know if you have further questions.

Thanks.

Steve

Subject: RE: Question from Asbestos SACC Member

Hi Steven,

What portion of the email should I include as part of the comment (along with the attachment)?

Should the whole conversation be included?

Regards,

Ms. Amparo Castillo

Dr. Wong,

Thank you for the opportunity to respond to the SACC question. I have attached our response.

Subject: RE: Question from Asbestos SACC Member

My question was whether the individual companies that provided data had written Industrial Hygiene air monitoring program plans. Is it routine, systematic regular testing or special projects or sporadic evaluations? How often do they sample, how many samples and is it the same individuals or random people. Some of the short-term samples could have been done because they were evaluating control strategies. Those would be helpful to understand the data.

Hello Andy,

Please confirm if Robyn Brooks of Chlorine Institute heard your question correctly (see below) before she answers your question in writing. Thanks.

Diana

Hi Diana,

I am not sure I heard the question correctly. Before I send a response, my question is:

“Was Dr. Anderson asking for industrial hygiene data, methodology, and/or conclusions from studies that inform respirator policies at chlorine production facilities? If that is a mischaracterization of the question, please ask Dr. Anderson to restate his question.”

Hello Robyn,

You can send me your written clarification to the question. I will share with panel members and submit to the docket. Thanks.

Best Regards,
Diana

Subject: Question from Asbestos SACC Member

Dr. Wong,

After I gave my public comments, Dr. Henry Anderson, I believe, asked a question about industrial hygiene data in the chlor-alkali industry. I would like to clarify the question and enter whatever answer I can provide in the docket. How do I go about doing that?

Robyn Brooks
